

Mersouga - The Dune Race

Like a long motocross or a Hare and Hound the dune race is 3 laps of the Erg Chebbi's best dunes and a run to the top of the 300m house dune to complete the day. The race takes about 1.5 hours for the fastest riders but much longer for the rest of the field. The riders at the front of the field battled close together for the first lap until Daniel Willemsen pulled away again to win the race. By the end of the day the house dune was scattered with riders who had abandoned their bikes to run to the top of the dune to get there time cards stamped. The Profi cars was won by the British Team Rallyraid UK Paul Round and Martin Coulson. The ametuer cars was won by Amthor / Tiarks.
